EXAMINER

BOKHARI, SYED M

ART UNIT

PAPER NUMBER

2616

MAIL DATE

DELIVERY MODE

11/27/2007

PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/720,309	Applicant(s) AIGASA ET AL.	
	Examiner Syed Bokhari	Art Unit 2616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 November 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☐ Claim(s) _____ is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☒ Claim(s) 1-17 are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7 and 11, drawn to data multiplex broadcasting (claim 1 lines 1-2) "a method of data multiplex broadcasting, which comprises multiplexing data to be transmitted", (claim 2 line 2) "multiplexing data to be transmitted", (claim 3 line 2) "multiplexing data to be transmitted", (claim 4 line 2) "multiplexing data to be transmitted", (claim 7 line 2), "multiplexing data expressing broadcast contents" and (claim 11 lines 1-2) "a multiplex system comprising a plurality of information output devices" classified in class 370, subclass 312.
 - II. Claim 8, drawn to switcher (claim 8 lines 1-3) "a switcher comprising an input interface means for receiving data through a plurality of lines", classified in class 370, subclass 360.
 - III. Claims 9-10, drawn to a source controller (claim 9 lines 2-3) "a control means for controlling a plurality of information output devices" and (claim 10 lines 2-3) "a control means for controlling a plurality of information" output devices", classified in class 370, subclass 360.
 - IV. Claims 12-14, drawn to reception device (claim 12 lines 1-2) "a receiving device for receiving data multiplex signal" and (claim 13 lines 1-2) "a

receiving device for receiving data multiplex signal", classified in class 370, subclass 350.

- V. Claim 15, drawn to system controller (claim 15 line 1) "a system controller for controlling a receiving device", classified in class 370, subclass 360.
- VI. Claims 16-17, drawn to recording or storage device (claim 16 lines 1-2) "a recording device for receiving data multiplex signal and recording contents", classified in class 370, subclass 535.

2. Inventions I, II, III, IV, V and VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination I has separate utility such as "a method of data multiplex broadcasting, which comprises multiplexing data to be transmitted" (claim 1 line 1-2), "multiplexing data to be transmitted" (claim 2 line 2), "multiplexing data to be transmitted" (claim 3 line 2), "multiplexing data to be transmitted" (claim 4 line 2), "multiplexing data expressing broadcast contents (claim 7 line 2) and "a multiplex system comprising a plurality of information output devices" (claim 11 lines 1-2), subcombination II has separate utility for "a switcher comprising an input interface means for receiving data through a plurality of lines" (claim 8 lines 1-3), subcombination III has separate utility for "a control means for controlling a plurality of information output devices" (claim 9 lines 2-3) and "a control means for controlling a plurality of information" (claim 10 lines 2-3), subcombination IV

has separate utility for "a receiving device for receiving data multiplex signal" (claim 12 lines 1-2) and "a receiving device for receiving data multiplex signal" (claim 13 lines 1-2), subcombination V has separate utility for "a system controller for controlling a receiving device" (claim 15 line 1) and subcombination VI has separate utility for "a recording device for receiving data multiplex signal and recording contents" (claim 16 lines 1-2). See MPEP § 806.05(d).

The examiner has required restriction between subcombinations usable together. Where applicant elects a subcombination and claims thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR 1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

3. A telephone call was made to Rachael Leventhal on 11/14/2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103 (a) of the other invention.

4. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103 (a) of the other invention.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Syed Bokhari whose telephone number is (571) 270-

Application/Control Number:
